

Snow White

Anamaria Vasquez

Early History

Snow White and the Seven Dwarfs was the first animated feature film in the world and was released on February 4th, 1938. Many people believed that an animated film like Snow White wouldn't be very successful.

Its Success

When released, however, the film received worldwide positive reception and commercial success and as a result it set the precedent for Disney's becoming the top animation studio.

Its Impact on Animation

Snow White and the Seven Dwarfs paved the way for popular animated films to come like Bambi, Pinocchio, and Cinderella. It introduced the world to animated films and established Disney's place in Hollywood today.
